

# YUPOTako®

Sticks to flat surfaces  
without adhesive

## YUPOTako® – A new temptation for the creative appetite

Tako means octopus in Japanese. Because of its micro suction structure, YUPOTako® sticks to flat surfaces just like an octopus. It does not use an adhesive and leaves no sticky feeling on the application surface. YUPOTako® is reusable: Simply clean the micro-suction side with water if the adhesion is weakened by dust.

### Characteristics of YUPOTako®

- Bubble-free
- Special handling is not required
- Easy to stick on and easy to remove
- No glue, no sticky feeling
- Not using PVC. YUPOTako® is environmentally friendly
- Variety of grades for different printing methods

### Applications:

Advertisement for electrical appliances in shops, especially refrigerators and computers

- Posters for department stores
- Active campaigns at fast-food restaurants
- Floor banners in supermarkets
- Advertisement in vending machines
- Kids games

### YUPOTako® grades available:

Grade	Thickness (µ)	Basis weight (g/m <sup>2</sup> )	Print method	Recommended ink type
WKFS 340	320	220	Sheet offset	Offset paper ink
XAD 1069	210	166	Screen print and UV digital	Screen: PP inks
WKJ 250	220	156	Waterbase Inkjet	Pigment
XAD 1071	285	224	Eco solvent Inkjet	Eco solvent
XAD 1058	240	170	HP Indigo	—
XAD 1057	272	190	Office Inkjet	—

### Usage Instructions - Caution

In some cases white residue could develop after removal of YUPOTako®:

- High temperature and high humidity such as 60°C / 90%Rh.
- Mounting object is printed plastic (especially PVC and Acrylic) and YUPOTako® is to be applied for an extended period. Please leave the application area unprinted.

Remaining residue can be wiped off easily with a wet towel.

Not suitable for sticking on 3D objects.

Not recommended for outdoor usage or car stickers.

When laminating YUPOTako® some curling can occur during application or removal.

Do not apply YUPOTako® on glass with steel net wire. The glass might break due to thermal insulation.

Do not apply YUPOTako® directly on display screens. It may cause damage to the screen.
